every breath counts

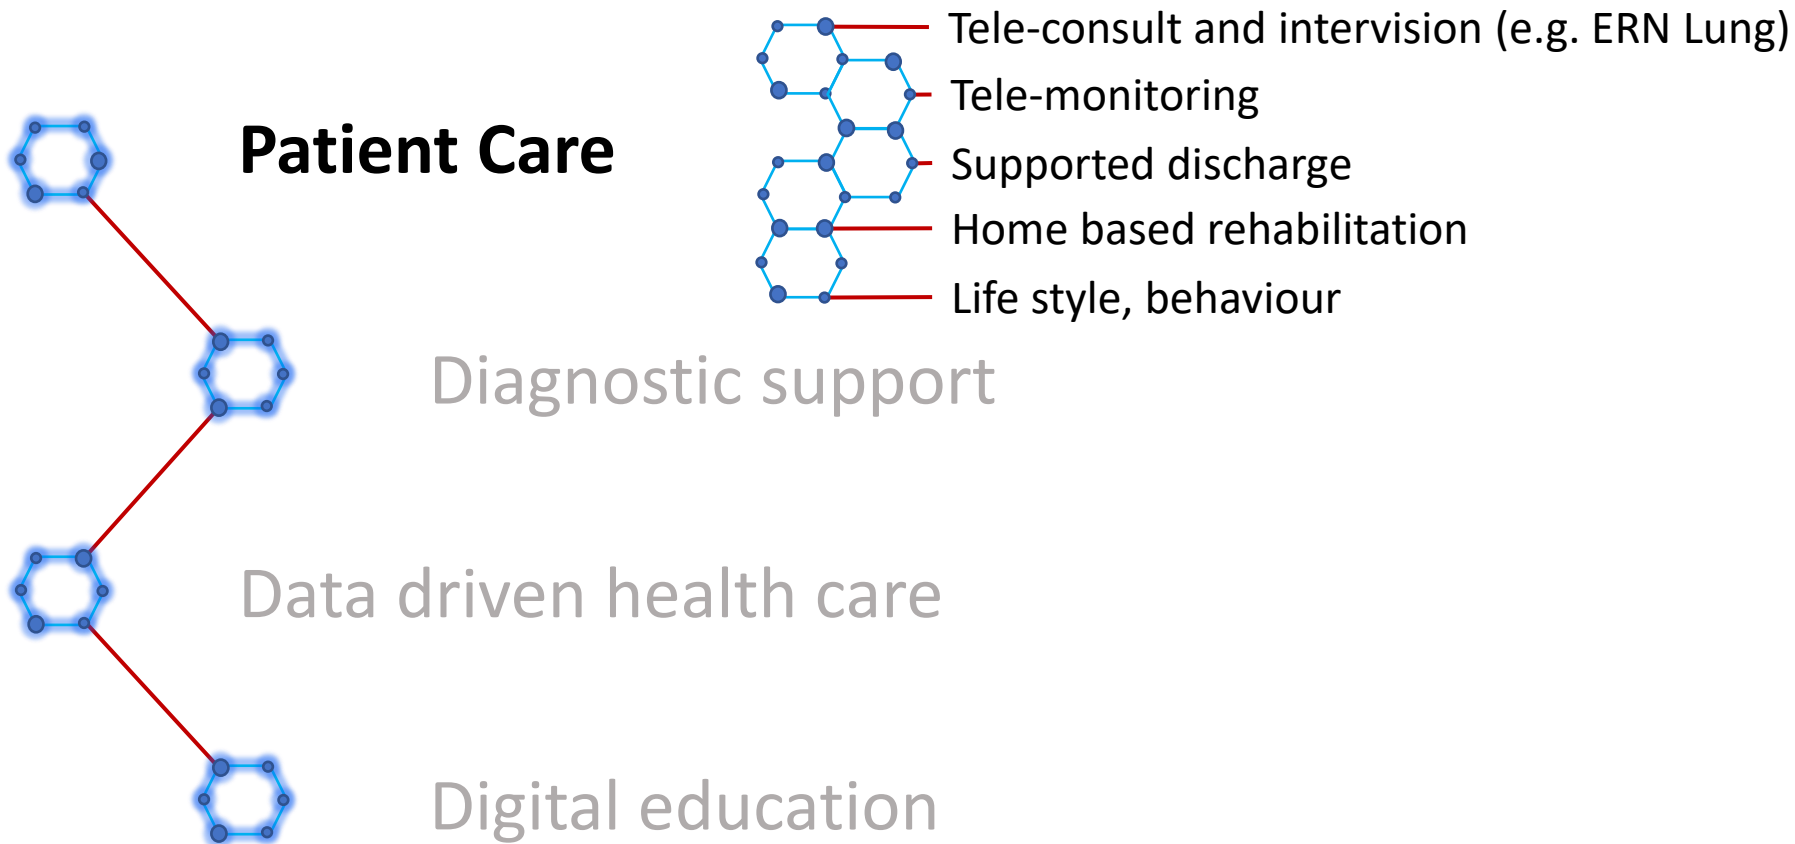

Digital respiratory medicine – realism vs futurism

3rd-4th June

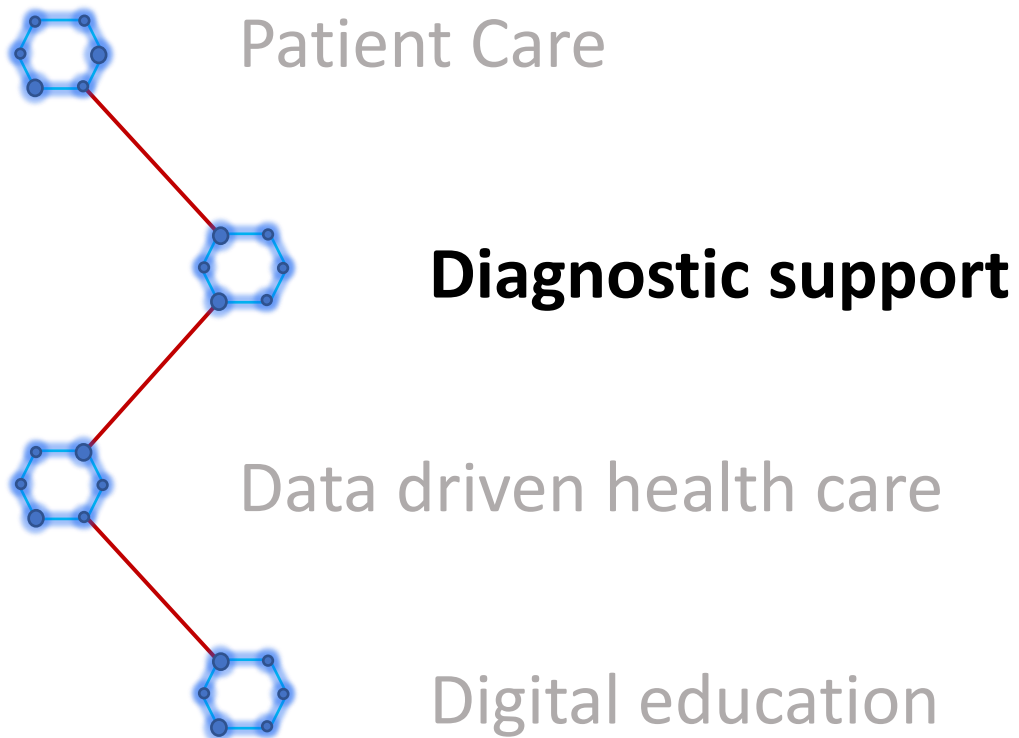

Digital innovation

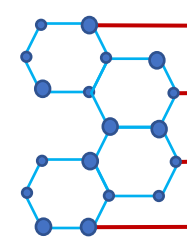

Digital innovation

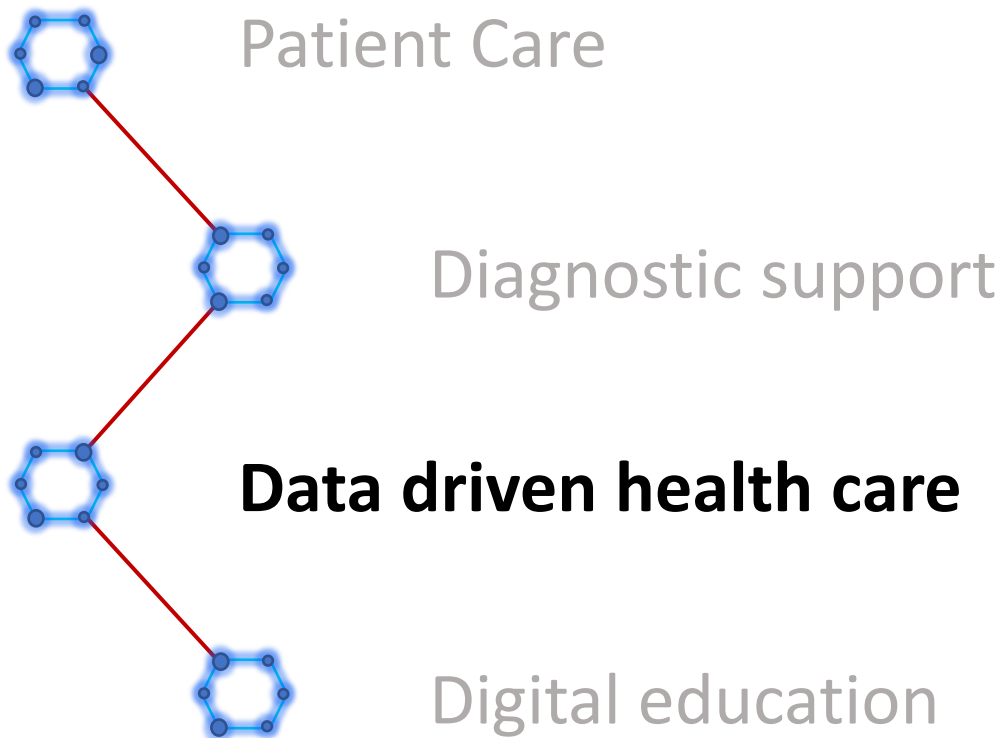

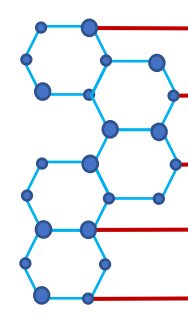

Digital innovation

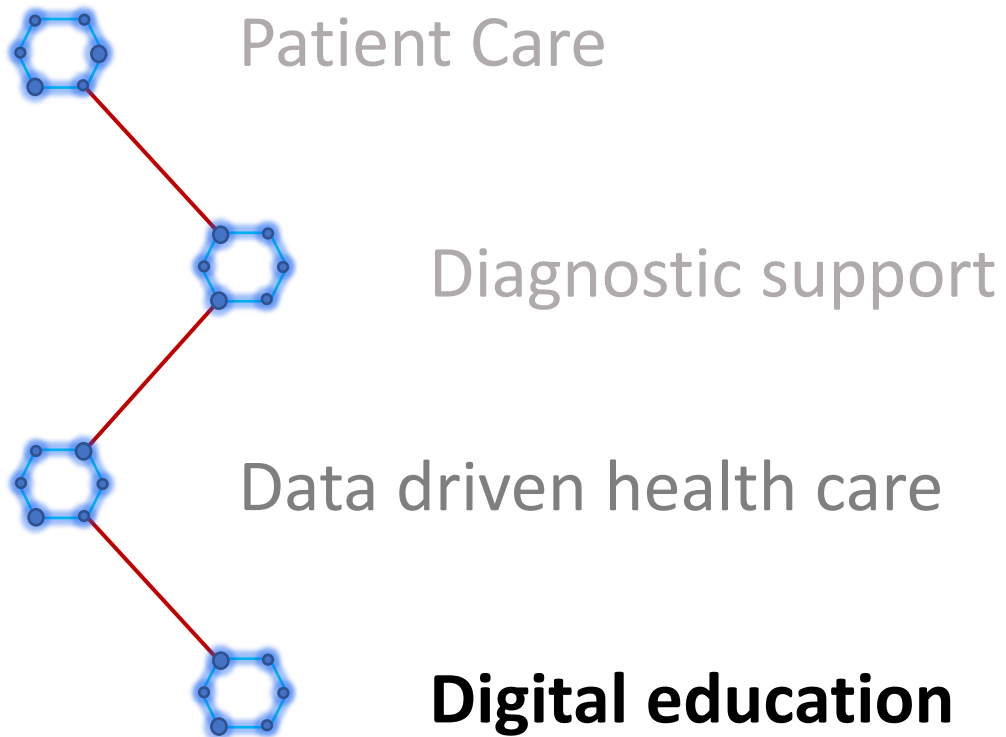

- 
- Application of virtual decision trees
 - A.I. support for more complex, routine tests (e.g. LF)
 - New outcomes calculated from old tests
 - Home monitoring for OOO diagnostics

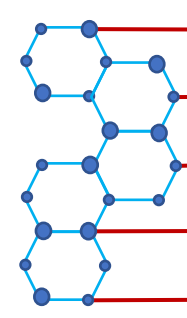

Digital innovation

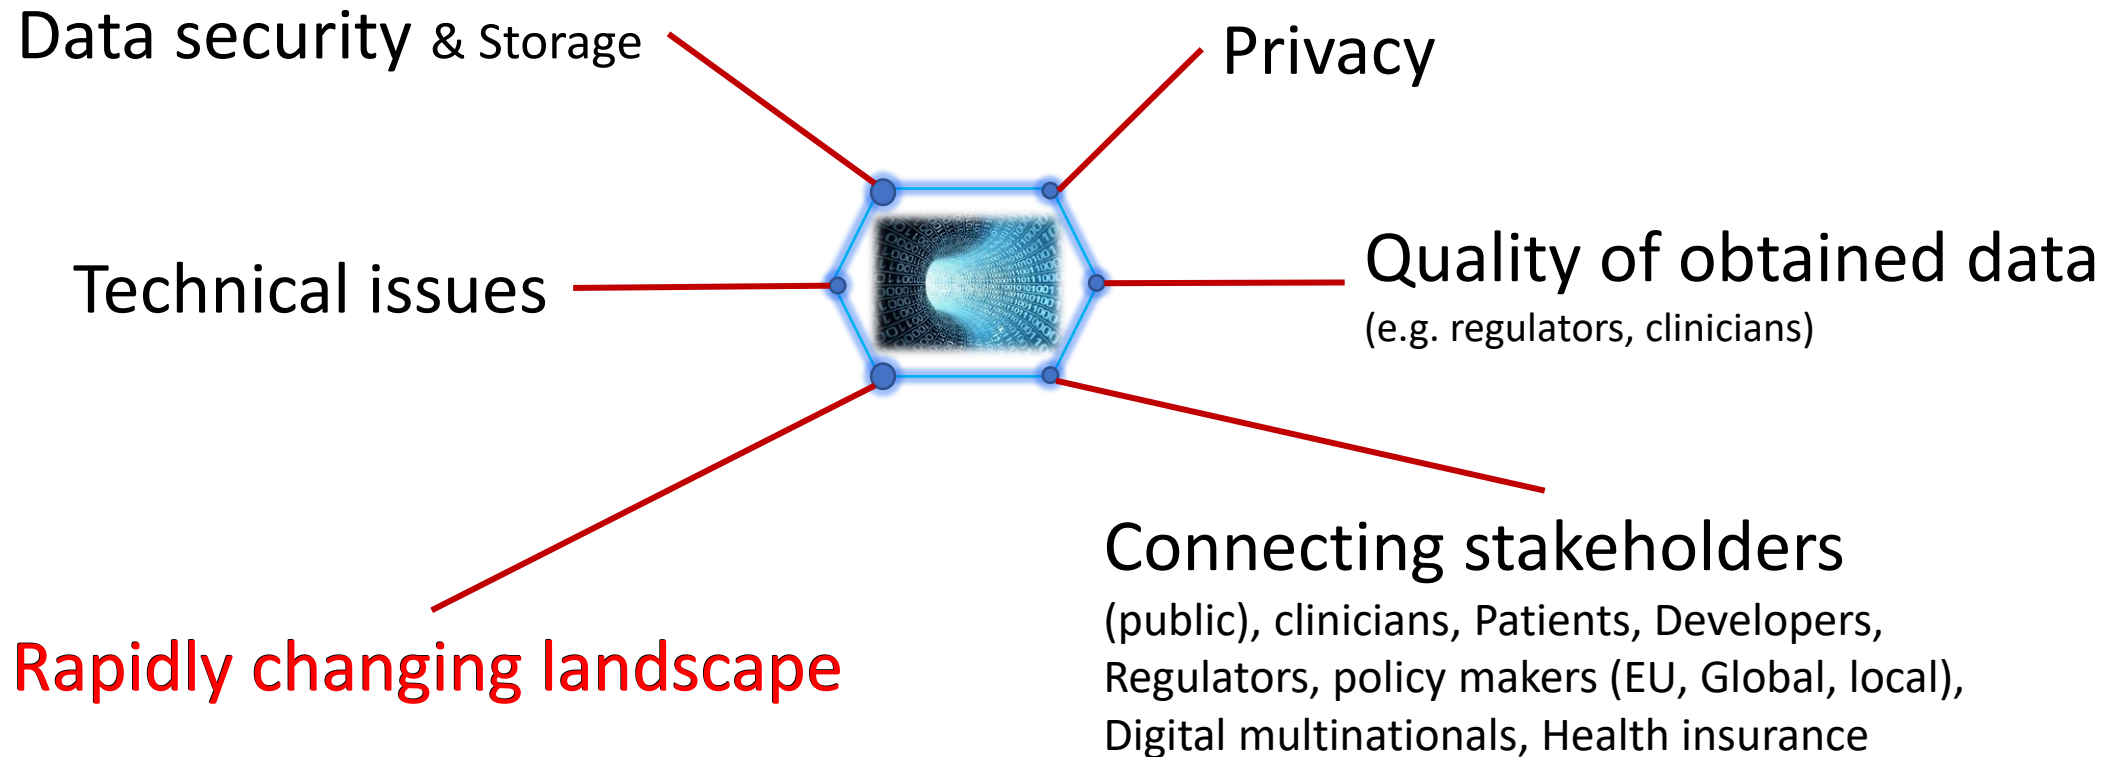

- 
- Remote clinical trials (industry)
 - Registries
 - prE-scriptions
 - E-pidemiologic surveillance and alerts
 - Trend analysis to predict future health care needs

Digital innovation

- 
- Virtual congresses and workshops
 - Virtual skills lab
 - Stay up-to-date (bedside Ebpractice)
 - Patient information material interaction
 - Tailored educational material

Challenges

Digital health futurism for patients (the Lego® solution)

Enjoy the summit
