ERS is proud to announce the fifth edition of the award-winning ERS Satellites, taking place online on 24 February 2022. The event will offer a full-day programme covering four hot topics in respiratory medicine. Registration is free.

ERS Satellites have been using the latest in live-streaming technology since 2018 – delivering education to a global audience and supporting knowledge sharing and interaction on a virtual platform.

The programme for this year’s event is designed to support audience participation; allowing virtual delegates to ask questions and discuss presentations with speakers and chairs. All presentations will be chaired by specialist panels live from the studio.

The 2022 edition of the ERS Satellites will be covering the following topics:
- ASTHMA
- COPD
- ENVIRONMENT & CLIMATE CHANGE
- ILD

Each topic will cover the following:
1. Disease mechanisms & understanding
2. State of the art (recent literature) & treatment approaches
3. Application of current knowledge & clinical perspective with cases
4. Horizon scanning and next steps

Chairs: Chris Brightling and Richard Costello
Joined by chairpersons from our supporting National societies.

National society partners

- **Greece**
  - Chair: Dr. Petros Bakakos
- **Poland**
  - Chair: Prof. Dr. Joanna Chorostowska-Wynimko
