Research Seminar

*In Vitro Diagnostic (IVD) tests to combat antimicrobial resistance in community-acquired low-respiratory tract infections (CA-LRTI)*

27-28 November 2023

Barcelona, Spain

---

**Monday, 27 November 2023**

13:15-13:20  Welcome and introduction by organisers

M. Sanguinetti, H. Goossens, E. Polverino

**Session 1**

Chair: H. Goossens

13:50–14:05  Q&A

14:05–14:35  Landscaping of diagnostic tests for RTI

14:35–15:05  Q&A

15:05-15:30  Coffee break

**Session 2**

Chair: E. Polverino

15:30–16:00  How IVD really improve clinical outcomes in the management of LRTI

16:00–16:30  Q&A

16:30–17:00  Adaptive clinical trials and new approaches in the field of research of respiratory infections

17:00–17:30  Q&A

---

All times are in Central European Time (CET).
Tuesday, 28 November 2023

Session 3
Chair: M. Sanguinetti
09:00–09:30 Health economic models for diagnostics
09:30–10:00 Q&A
10:00–11:00 Round table discussion:
   Participants and faculty split into four groups.
   - Breakout 1: Landscaping of diagnostic tests for RTI
   - Breakout 2: How IVD really improve clinical outcomes in the management of LRTI
   - Breakout 3: How IVD really improve clinical outcomes in the management of LRTI
   - Breakout 4: Adaptive clinical trials and new approaches in the field of research of respiratory infections

11:00-11:30 Coffee break

Session 4
Chair: M. Sanguinetti, H. Goossens, E. Polverino
11:30–12:30 Feedback from the round table groups
12:30–12:40 Wrap up and conclusion

All times are in Central European Time (CET).
