

Satellites 2024

5 March 2024

COPD

- 09:00-09:10 Introduction from the chairs in the Studio
- 09:10-09:30 Risk factors for COPD: not all the same
- 09:30-09:50 COPD detection strategies: screening, case-finding
- 09:50-10:10 Integrating digital health in integrated COPD care
- 10:10-10:30 Biologics in COPD: are we there?
- 10:30-11:00 Conclusion and Q&As led by the chairs in the Studio

11:00-11:30 Break

Asthma

- 11:30-11:40 Introduction from the chairs in the Studio
- 11:40-12:00 What do I need to know about the mechanisms and phenotyping of mild to moderate asthma?
- 12:00-12:20 Adherence and health behaviours in asthma and the potential of digital support
- 12:20-12:40 Dealing with allergy in asthmatics: challenges and opportunities
- 12:40-13:00 Imagining the future severe asthma decision trees
- 13:00-13:30 Conclusion and Q&As led by the chairs in the Studio

13:30-14:30 Break

Bronchiectasis

- 14:30-14:40 Introduction from the chairs in the Studio
- 14:40-15:00 The airways mucus in health and disease
- 15:00-15:20 The evolving role of microorganisms in bronchiectasis
- 15:20-15:40 Holistic care for bronchiectasis
- 15:40-16:00 Future pharmacological approaches for bronchiectasis
- 16:00-16:30 Conclusion and Q&As led by the chairs in the Studio

16:30-17:00 Break

Infections

- 17:00-17:10 Introduction from the chairs in the Studio
- 17:10-17:30 Natural history of acute lung infections
- 17:30-17:50 Vaccination against lung infections: from evidence to clinical practice
- 17:50-18:10 Using antibiotics wisely (and still have happy patients)
- 18:10-18:30 Managing acute lung infections: novel antibiotics and beyond
- 18:30-19:00 Conclusion and Q&As led by the chairs in the Studio
