

Skills courses Thoracoscopy and Pleural Techniques Course 20-23 March 2024 Marseille, France

Day 1 - Wednesday

08:30 - 08:50	Welcome
08:50 - 09:00	Introduction and description of the course
	Philippe Astoul (Marseille, France)
09:00 - 09:45	Anatomy and applied physiology of the pleural space
	Philippe Astoul (Marseille, France)
09:45 - 10:30	Pleural imaging: what do pulmonologists have to know?
	Paul Habert (Marseille, France)
10:30 – 10:45	Break
10.45 11.20	Dlind alough biogen it still aggregate available accordance
10:45 – 11:30	Blind pleural biopsy: it still remains available nowadays
	Julie Tronchetti/Jean-Baptiste Lovato (Marseille, France)
11:30 – 12:30	Medical thoracoscopy: basic approach
	Philippe Astoul (Marseille, France)
12:30 - 12:40	Introduction for practical sessions
	Philippe Astoul (Marseille, France)
12:40 – 14:00	Lunch Break
	HANDS ON WORKSHOPS

14:00 – 16:30 Workstations

Artificial pneumothorax – Pleural exploration (single point of entry) – Parietal pleura biopsy (optical biopsy forceps) – Removal of endopleural foreign body

Hands-on workshop on models. Participants will be divided in 3 groups according to their level of experience. After a brief initial demonstration, every participant will have time for personal training in each workstation under staff supervision.

Day 2 - Thursday

09:00 - 09:45	Pleural exudates: role of thoracoscopy
07.132	Bernard Duysinx (Liège, Belgium)
09:45 - 10:30	Chest sonography: How can it help us for pleural maneuvers?
	Gilles Mangiapan (Créteil, France)
10:30 - 11:00	Management of Primary spontaneous pneumothorax
	Philippe Astoul (Marseille, France)
11:00 – 11:15	Break
11:15 – 12:00	Management of recurrent malignant pleural effusions
	Marios Froudarakis (St Etienne, France)
12:00 – 12:30	Local anaesthetic pleuroscopy for unexplained exudative pleural effusion - How I do it?
	Gilles Mangiapan (Créteil, France)
12:30 – 14:00	Lunch Break
	HANDS ON WORKSHOPS
13:30 – 16:30	Workstations
	Second point of entry – Pleural exploration with two hands – Use of coagulating forceps – Pleural poudrage
	riouru pouduuge

Hands-on workshop on models. Participants will be divided in 3 groups according to their level of experience. After a brief initial demonstration, every participant will have time for personal training in each workstation under staff supervision.

Day 3 - Friday	
09:00 - 09:30	Management of Recurrent Transudative Pleural Effusion: which procedure?
	Jose M Porcel (Lleida, Spain)
09:30 - 10:15	Nonspecific Pleuritis after Thoracoscopy
	Ales Rozman (Golnik, Slovenia)
10:15 – 11:00	Management of Empyema: How to avoid surgery?
	Marios Froudarakis (St Etienne, France)
11:00 – 11:15	Break
11:15 – 11:45	Medical thoracoscopy in absence of pleural effusion

All times are in Central European Time (CET).

Philippe Astoul (Marseille, France)

11:45 – 12:30 Chest tube drainage of the pleural space: Indications, Techniques, Pitfalls, and Complications

Jose M Porcel (Lleida, Spain)

12:30 – 14:00 *Lunch Break*

HANDS ON WORKSHOPS (afternoon)

14:00 – 16:30 Workstations

Management of bleeding – Management of air-leak – Others pleural manoeuvres

Hands-on workshop on models. Participants will be divided in 3 groups according to their level of experience. After a brief initial demonstration, every participant will have time for personal training in each workstation under staff supervision.

Day 4 - Saturday

09:00 – 09:45	Flexi-rigid thoracoscopy: advantages and drawbacks
	Ales Rozman (Golnik, Slovenia)
09:45 - 10:30	Medical Thoracoscopy: how to start?
	Marios Froudarakis (St-Etienne, France)

10:30 – 11:00 How to anticipate and diagnose iatrogenic complications of thoracoscopy

Philippe Astoul (Marseille, France)

11:00 – 11:15 *Break*

11:15 – 12:30 Open discussion ('pot pourri') and hands-on around (models):

- Pleural ultrasound
- PleurX management
- Indwelling pleural catheter placement

12:30 End of the course
