

ERS Rigid Bronchoscopy Course
06-08 June 2024
Marseille, France

Thursday, 06 June 2024

- 08:30 – 09:00** Welcome and introduction
- 09:00 – 10:00** Anatomy of the larynx, tracheobronchial tree and mediastinum – *Ph Astoul (Marseille, France)*
- 10:00 – 11:00** Anesthesia for rigid bronchoscopy and basics – *D Breen (Galway, Ireland)*
- 11:00 – 12:00** Indication and complications of rigid bronchoscopy: an overview –
H Dutau (Marseille, France)
- 12:00 – 13:00** Rigid bronchoscopy: a 'Swiss Army Knife' for tracheal-bronchial tree –
N Guibert (Toulouse, France)
- 13:00 – 14:00** *Lunch (provided)*

WORKSHOPS – Prs P. Astoul and H. Dutau,

- 14:00 – 16:30** **Group 1**
Practical workshop
Workstation 1: Foreign body extraction
Workstation 2: Silicone stent placement
Workstation 3: Metallic Stent Placement

- Group 2**
Practical workshop Workstation 1: Tracheal intubation with rigid bronchoscope
Workstation 2: Selected cases (video)

Participants will be divided into 2 groups with a maximum of 3-4 participants per workstation.

- 16:45 – 17:30** How to set an operating room for interventional rigid bronchoscopy and how to start? -
D Breen (Galway, Ireland)

Friday, 07 June 2024

- 9:00 – 9:40** Airway stenting: a comprehensive review for the choice of the dedicated stent during a procedure and advices for the follow-up – *H Dutau (Marseille, France)*
- 9:40 – 10:00** Are 3D printed stents the future of airway stenting? *N Guibert (Toulouse, France)*
- 10:00 – 11:00** Tracheobronchial desobstruction: How and when do I do it? *N Guibert (Toulouse, France)*
- 11:00 – 12:00** Bronchoscopic management of tracheal stenosis – *H Dutau (Marseille, France)*
- 12:00 – 13:00** Management of foreign body: how I do it? – *J Tronchetti (Marseille, France)*
- 13:00 – 14:00** *Lunch (provided)*

WORKSHOPS – Prs P. Astoul and H. Dutau,

- 14:00 – 16:30** **Group 2**
