

ERS CONGRESS | 2026

5-9 September | Barcelona, Spain

Organising an Industry Evening Mini-Symposium is an ideal solution for companies with a select target audience to feature in the ERS programme. Companies with products for orphan diseases, with clinical findings relating to devices or with innovative new products will find it a perfect platform to deliver cutting-edge material to key individuals in respiratory medicine. This option is not suitable for all companies and topics. ERS reserves the right to prioritise based on the suitability of the application.
